S14

S14 LED Filament :

illuminFx's line of LED filament bulbs offers a low cost, high efficiency lamp to replace both incandescent and fluorescent applications. Get that incandescent appearance but with a low wattage LED replacement. In addition, the S14 series come with a UL listing (120V only) and full dimming capabilities. A perfect lamp for any incandescent replacements around the house or office. Perfect for outdoor applications used with IFXs PL Series Patio Lights.
