OVATION

15/25/35W LED

TL

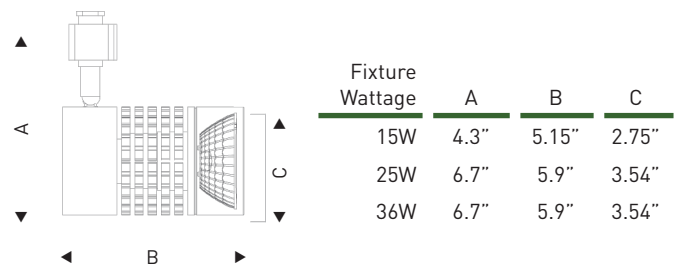

OVATION TL01 :

The OVATION series of LED track fixtures uses a COB CREE LED to provide a high CRI (90CRI available for 2700K and 3000K) and 80lm/W light output. The dimmable driver works with most standard dimmers without flicker (120V AC ONLY). The fixtures are also adjustable with a continuous rotation of 350° and a 90° pivot. Unlike Metal Halide fixtures, the OVATIONS are instant start, quiet, and environment friendly.

- Ideal for accent lighting in shops, museums, galleries, schools, hotels, and homes.
- 15W is equivalent to a 39W Metal Halide
- 25W is equivalent to a 50W Metal Halide
- 36W is equivalent to a 70W Metal Halide
