Note:

Your device needs to be installed in the network coverage of your home router.

1. Please scan the QR code to download the application "Smart Life".
2. If you cannot download Smart Life app, please search "Smart Life" on Google Play (for Android phone) or Apple Store (for iOS phone) to download.

After you download the Smart Life App and register a new account, please follow the instructions below to set up your smart switch.

3. The smart switch can be also used with Amazon Echo and Google Home. Please scan the QR code below and follow the instructions if you have any trouble pairing with them.

Introduction

The illuminFx GM-7 is an enabled 15A indoor smart plug designed for use for most residential lighting and motor applications. It's compatible with LED, halogen, incandescent, xenon, fluorescent and compact fluorescent bulbs. Works with Amazon Alexa, Google Assistant and other smart home platforms. With the GM-7, you can use the free Smart Home App, or voice control by Alexa and Google Assistant to operate your devices in your home.

Specifications

- Power: 120V AC, 60Hz
- Total(Both Outlets):15 Amp Max
- Wireless Frequency: 2.4GHz
- Wireless Standard: IEEE802.11b/g/n
- Operating Temp of -4° F~122° F
- Please hang vertically on the wall.

When the white LED is flashing slowly (AP mode), please hold the button 5 seconds until the LED switches to rapidly blinking--Back to EASY MODE.

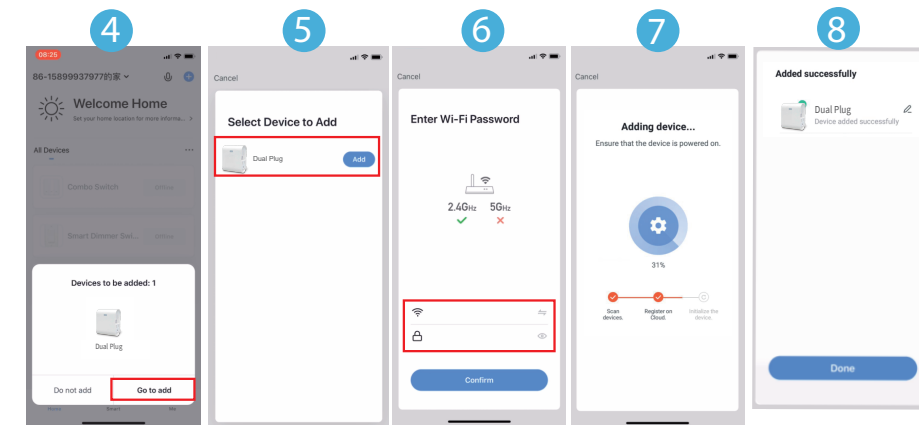

Note:

- 1) This product supports Bluetooth quick-fit and 2.4GHz Wi-Fi network.
- 2) 3 connection network modes: Bluetooth quick-fit Mode, Easy Mode, AP Mode. Choose the most suitable mode to configure the network.
- 3) Please operate quickly when the white LED indicator blinks rapidly.
- 4) When indicator flash enters the network, complete standard operation within the 3 minutes.
- 5) If you failed to connect with Wi-Fi network, please try to connect several more times.

Bluetooth quick-fit Mode

- 1: Plug-in the GM-7 directly to the wall outlet. Once plugged in, it will enter into the Bluetooth auto-connection mode. The auto-connection mode begins with the GM-7 blinking. The LED will blink for 3 minutes. If it stops, please hold the button 5 seconds until the LED blinks again.

2. Turn on your Phones bluetooth.
- 3: Tap '+' to add this plug in the "Smart Life" APP.

- 4: You'll see "Devices to be added"---"Go to add".
- 5: Click "Add"
- 6: Enter the Wi-Fi Password of your network (Your phone should be connected to the same Wi-Fi first).
- 7: Wait for the app to connect to your Wi-Fi.
- 8: Click the new smart plug you just added and you can start using it now.

If your Bluetooth is off, the APP will remind you: "You are advised to enable Bluetooth".

Easy Mode

- 1 Tap '+' to add a device in your app
- 2 Select "Electrician" - "Socket (Wi-Fi)"
- 3 Enter your Wi-Fi Password
- 4 Hold the button 5 seconds until "white" LED blinks rapidly.
- 5 Click to "Continue"
- 6 Select "is fast blinking (0.5s/time)"
- 7 Wait for 100% (LED stays in green 3 seconds.)
- 8 Click and edit the name of switch!

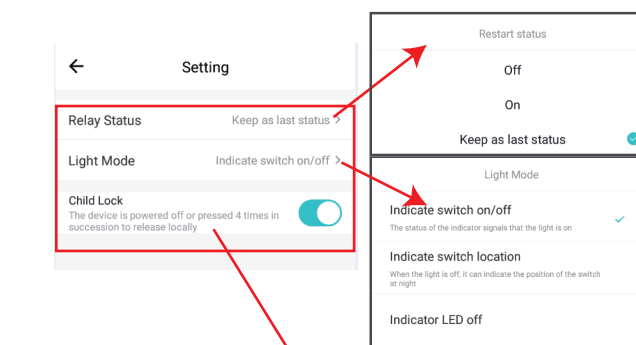

FCC warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.
