## SLIMFLEX SFT :

SlimFlex IP68 RGBW is the ultimate in flexible waterproof color changing lighting. Strong, vibrant whites, along with 16.8 million additional color combinations make this a can't miss solution. Our 2.5" cutting intervals help to fill any gaps at corners, and spillways with light. This product is cuttable in the field, but not re-connectable.

- Long life LED
- 2 year warranty
- Custom lengths available by special order
